Heritage & Company Story

Rooted In Heritage. Built For Today.

Our Story

For generations, **Trivedi Marble & Handicraft** has been shaped by a deep connection with natural stone, traditional craftsmanship and architectural work.

Based in **Abu Road, Rajasthan**, we combine generations of experience with modern CNC technology and skilled craftsmanship to create architectural, decorative and bespoke stonework.

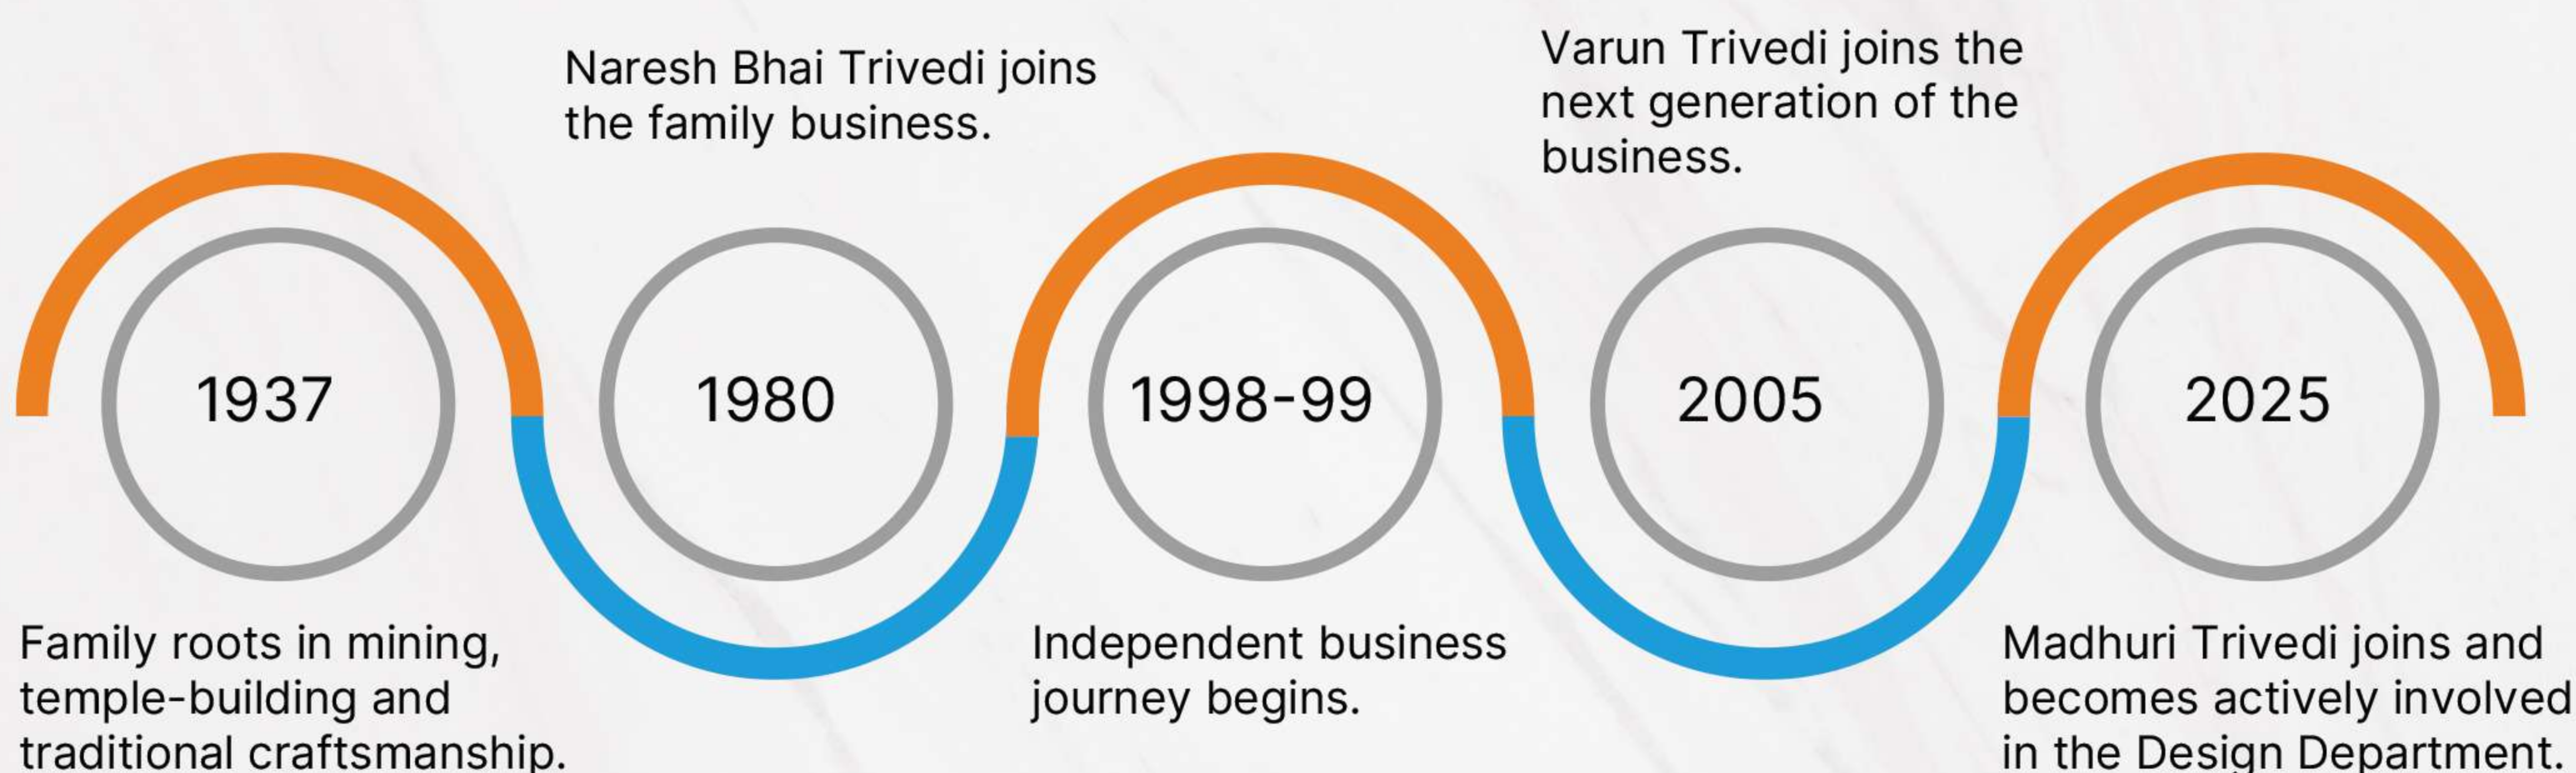

Our story began in **1937**, when our late great-grandfather, **Shri D. K. Trivedi**, came to Ambaji, Gujarat, with his sons. The family was involved in mining, traditional temple-building and craftsmanship.

The journey continued through **Shri Ravindra Bhai Trivedi** and later **Shri Naresh Bhai Trivedi**, who joined the family business in **1980** and began his independent business journey in **1998-99**.

In **2005**, **Varun Trivedi** joined the business, bringing the next generation into the family enterprise. Around **2025**, **Ms. Madhuri Trivedi** joined the business and became actively involved in the Design Department.

Today, the family continues to bring together heritage, technology and creativity to execute specialised **stonework, architectural elements, temple projects** and **customised creations**.

Our Journey

Our Belief

 Experience gives us perspective.

 Technology gives us precision.

 Craftsmanship gives our work its character.

Manufacturing & Capability

Precision at Scale.

Our integrated manufacturing infrastructure enables us to manage the complete stone-processing journey — from block handling and preparation to CNC cutting, profiling and detailed customised work.

01. Material Handling

- **Large Block Cutter**
precision cutting of large stone blocks.
- **Small Block Cutter**
processing smaller blocks and stone pieces.
- **Block Dressing Machine**
splitting and preparing large blocks.
- **30-Ton Gantry Crane**
heavy-duty stone block handling and unloading.
- **2-Ton Forklift**
efficient internal material movement.

02. CNC Production

Shed 01 — CNC Production

- 4 Double-Head CNC Routers
- 1 EOT Crane

Shed 02 — CNC & Profile Production

- 7 Double-Head CNC Routers
- 2 Double-Head Profile Machines
- 1 Four-Axis Double-Head CNC Machine
- 2 EOT Cranes

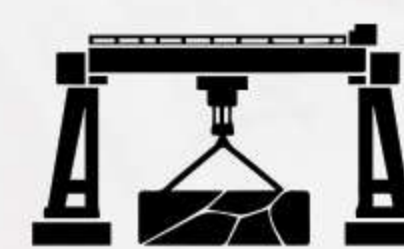

By The Numbers

02 | Production Sheds

11 | Double-Head CNC Routers

03 | EOT Cranes

24/7 | Manufacturing Operations

20+ | Permanent Team Members

125+ | Skilled Personnel Deployable as Required

Our Capability

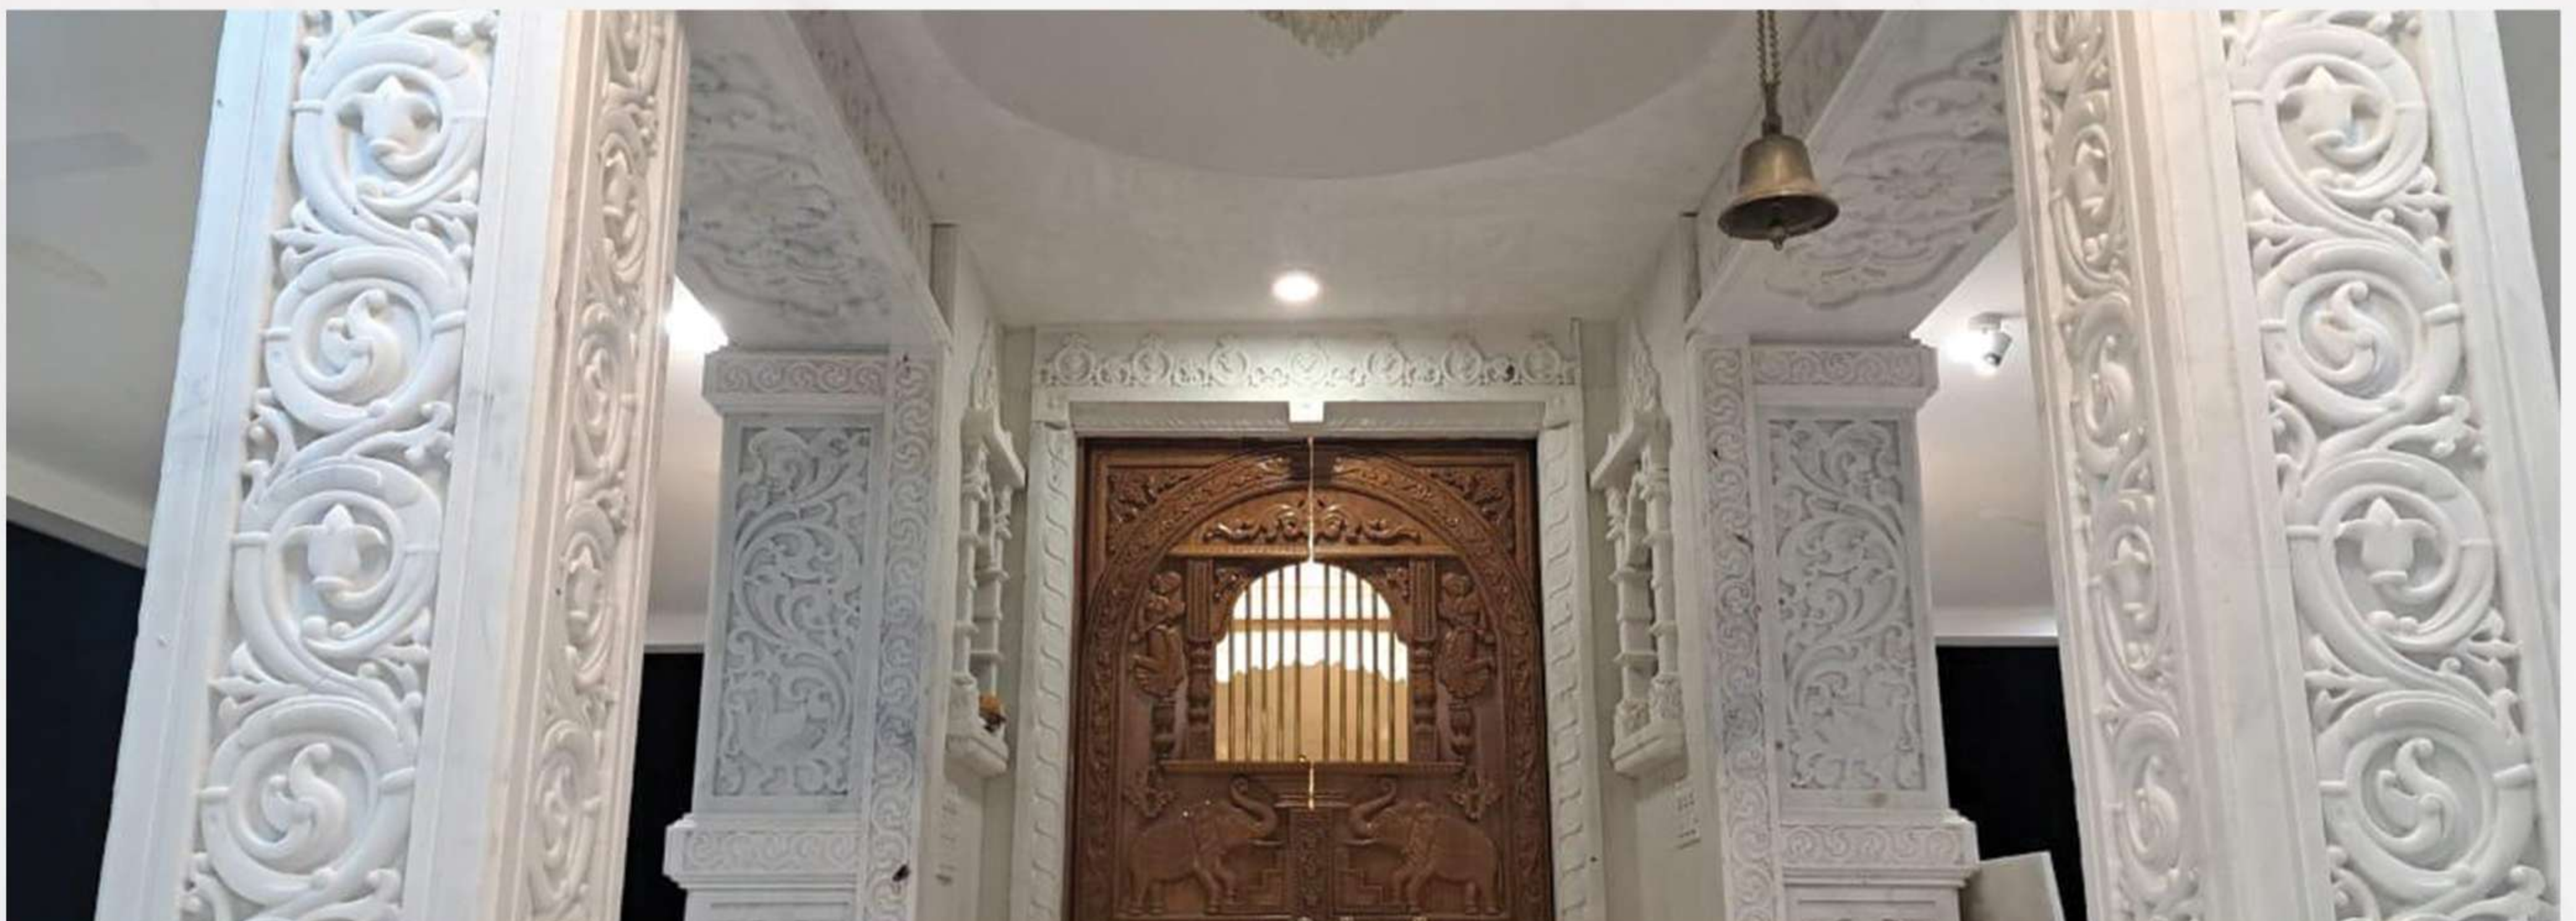

Our infrastructure supports both specialised bespoke projects and larger-scale production requirements, combining modern machinery, skilled manpower and round-the-clock operations.

84 Columns - Vrindavan

Manufacturing And Detailed Stonework For 84
Architectural Columns At Vrindavan.

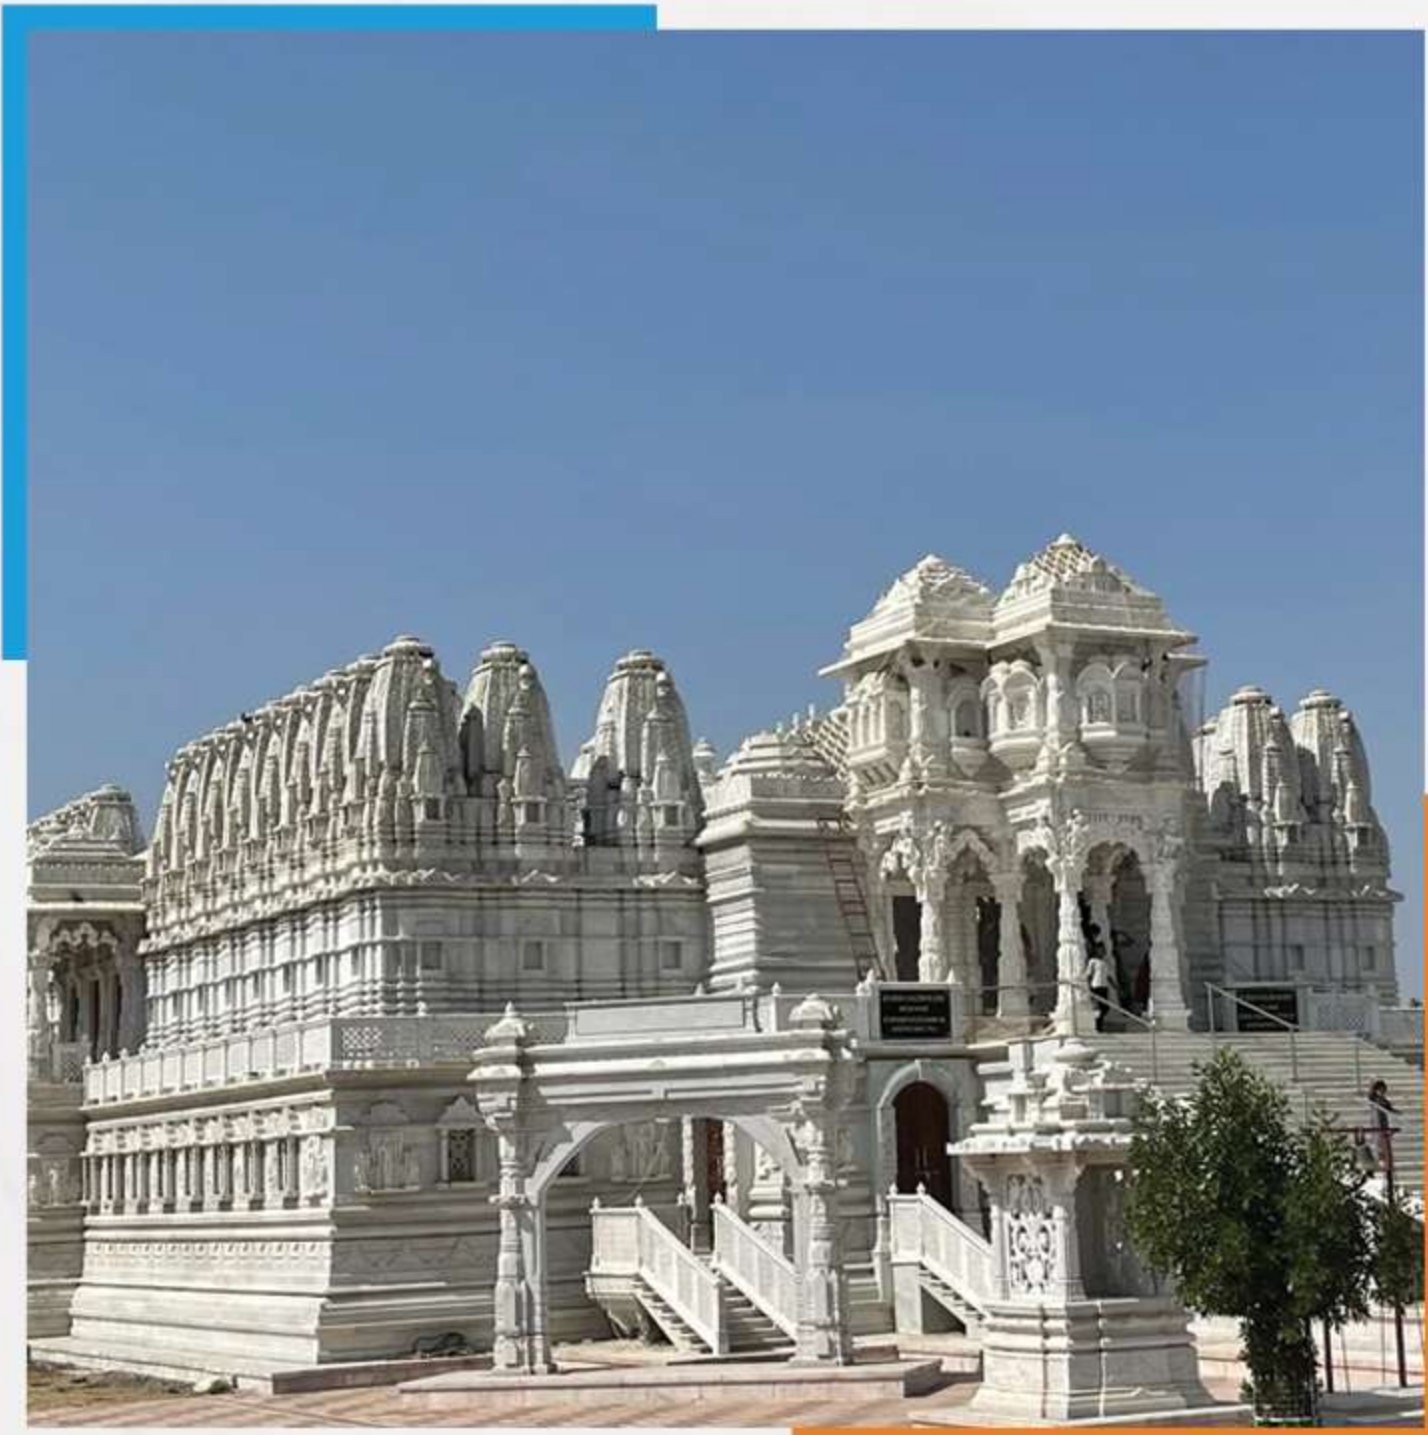

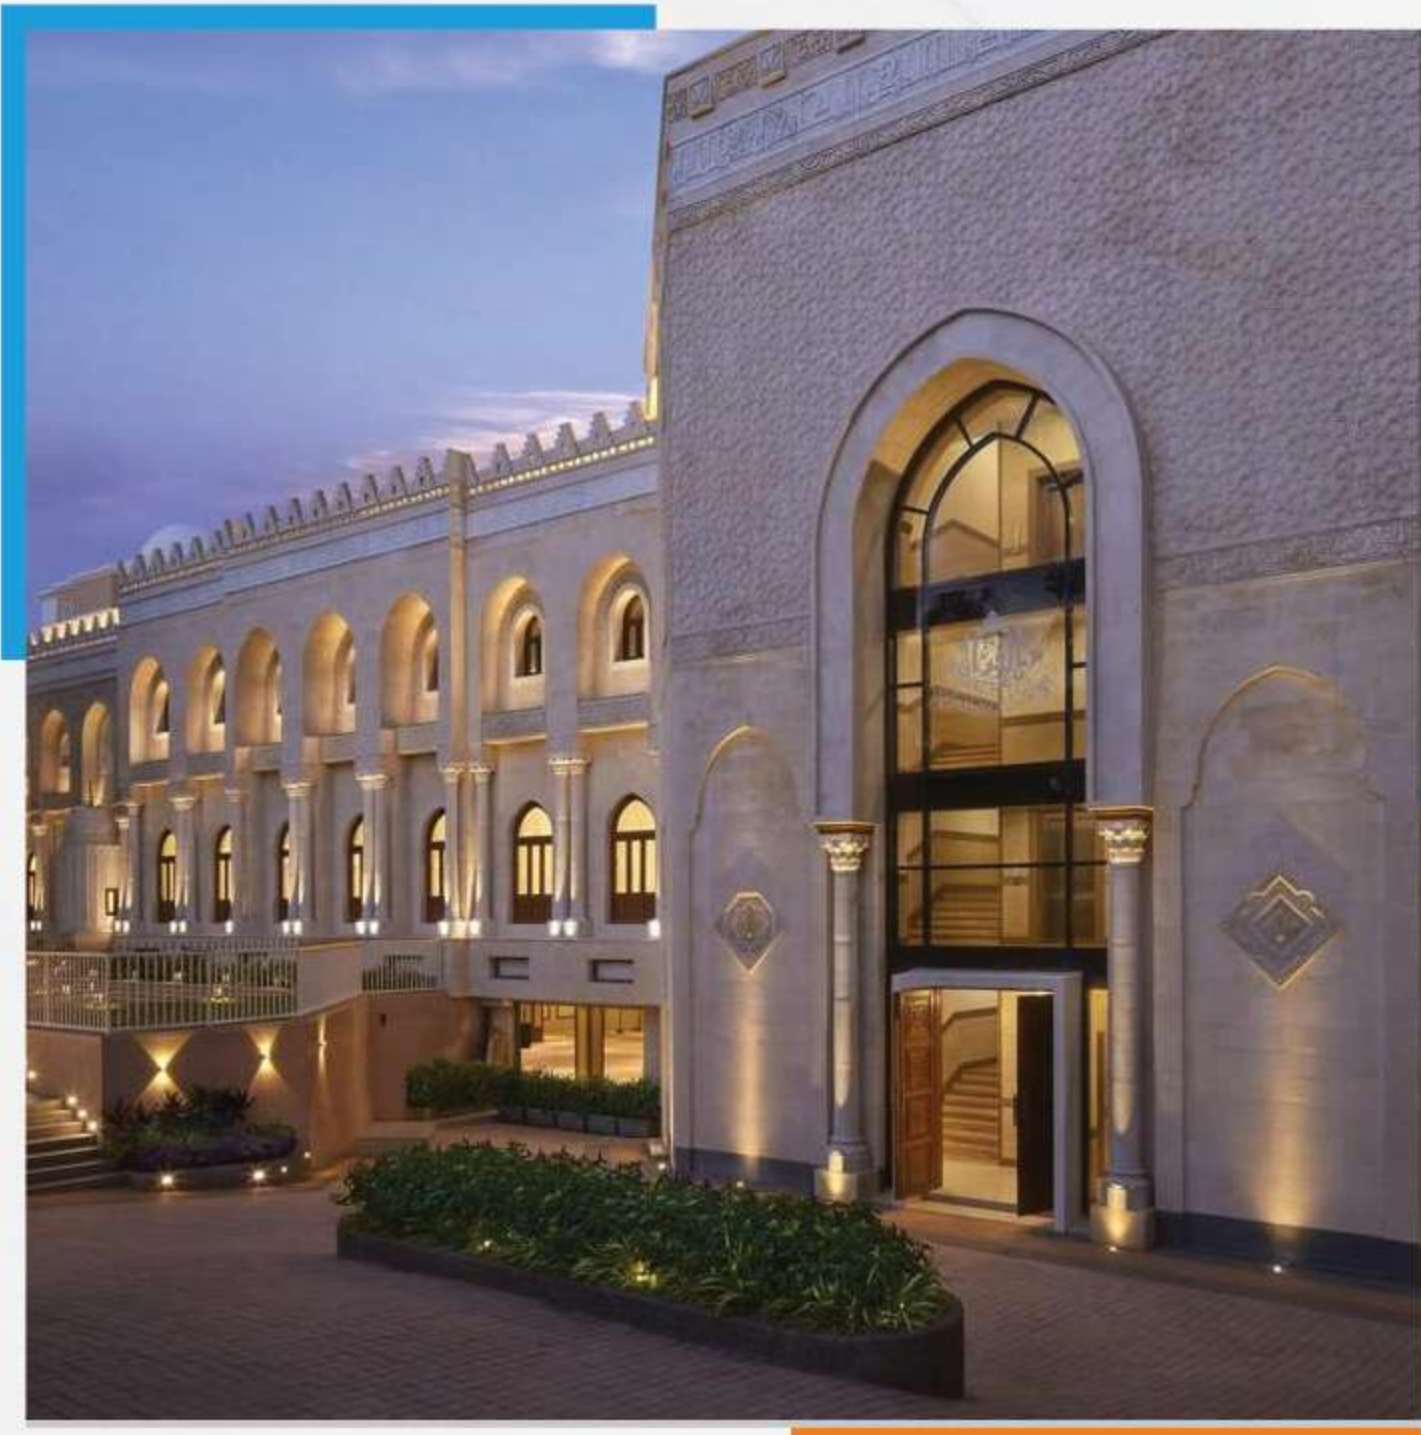

Selected Projects & Closing

Crafted For Landmarks. Created For Details.

Bhandavpur Jain Tirth

Specialised Stonework
And Intricate Architectural
Detailing For The
Jain Pilgrimage Complex.

Jamea-Saki Naka, Mumbai

Custom Stonework
And Architectural Elements
Executed For The
Jamea Project.

Omkareshwar Lotus Installation

Precision-Crafted Stone
Components For The
Distinctive Lotus Installation
At Omkareshwar.

Karban Mataji Mandir

Customised Stonework
And Architectural Elements
For The Temple Project.

Sidhpur Gate

Custom-Designed And Precision
Crafted Stone Entrance Gate
Showcasing Detailed Architectural
Craftsmanship.
